Questions Sent In from the Participants: CDTM and KM/DS

What is going on with CDTM and KM/DS?

- It's all about fiscal constraints
- CDTM: Permanent shutdown, effective 15 April
 - The hardware will be repurposed
 - Save your CDTM documents in Word format
 - Develop a plan to submit documents for JROC staffing either via e-mail to your Service Gatekeeper or directly into KM/DS
 - Further instructions on the Intellipedia Wiki Page:

[https://
intellipedia.intelink.gov/wiki/CDTM#CDTM_Shutdown
_Preparation_Directions](https://intellipedia.intelink.gov/wiki/CDTM#CDTM_Shutdown_Preparation_Directions)

- KM/DS: Transition to a Business Process Modeling (BPM) COTS solution
- The new system should be online 30 May
- Between 22 April and 30 May, staff documents via e-mail
- Potential for delays

Event	As of Date
Do not enter documents into KM/DS for “document review”	22 April
Do not enter documents into KM/DS for “FCB Draft”	6 May
Do not enter new data in KM/DS	16 May

Questions Sent in from the Participants

- How is integration done within the Joint Capabilities Integration and Development System (JCIDS)?
 - The JROC is charged with shaping the force
 - IT integration remains challenging
 - J-8 is looking at leveraging DODAF products
- How is DAU approaching the sequester?
 - The strength of online training
 - Classroom offerings (RQM 310, RQM 403) will continue
 - DAU will continue to fund RQM 310 travel costs
 - Does the training make RMs 10% more effective?

Frequently Asked Questions

- Developing IT requirements
 - DAU is working on an extension to RQM 310
- Upcoming changes to JCIDS
 - When can we expect the next update?
 - Latest information on Rapid Response activities
- Working with DAU:
What can DAU offer to your shop?

When to Schedule the Next Requirements Webinar?

- Suggest:
1500 EDT, Thursday, 20 June 2013
- Later in the day allows better West Coast and Pacific participation
- Fridays have too many scheduling conflicts

Reminder:

Requirements Workforce Working Group meeting
at the Pentagon Conference Center, 0900, Friday,
29 March

- IS ICDs for projects that should not be delegated away from the JROC
 - IS ICDs are supposed to be for narrowly scoped software development efforts
- Too much detail in ICDs
 - ICD requirements should NOT look like KPPs and KSAs
 - ICDs should have high-level operational requirements of what needs to be done, NOT how to do it
- Documents presented before the AoA is complete
 - CDDs and CPDs must NOT be presented until the AoA is completed and out-briefed to the

JROC

- Services are not considering joint approaches
 - Services are presenting ICDs for Service-specific problems and are not considering related Joint and other Service ICDs
 - We need to work common approaches and architectures rather than allowing divergences to continue
 - Update a Joint ICD if there is something missing for a particular Service, rather than five ICDs attempt to address the same overarching problem set

- What additional items will help you the most?
 - Adding material to existing courses
 - Better emphasis on non-materiel solutions
 - On-line resources: The RMCoP
 - <https://acc.dau.mil/CommunityBrowser.aspx?id=204035&lang=en-US>
- Mission Assistance
- Graduates and students are always free to contact DAU directly
